## Important areas of environmental impact

|   | Cyfrowy Polsat | Polkomtel | Telewizja Polsat |
|---|----------------|-----------|------------------|
| Consumption of raw materials                                | ✓              | ✓         | ✓                |
| Electrical power  | ✓              | ✓         | ✓                |
| Waste management and recycling                              | ✓              | ✓         | ✓                |
| Impact of base stations and transmitters on the environment | —              | ✓         | —                |

## Clean Poland Program

 PROGRAM / CZYSTA / POLSKA

### Education

The aim is to educate the public on the benefits of ecological lifestyle

### Information

Publicizing and promotion of major actions and topics which are associated with ecology, environmental protection and improvement of quality of living.

### Initiation of changes

We start from ourselves and we believe that our consistent actions will result in the change of approach to ecology by all.

## Sustainable Development Goals implemented in Polsat Plus Group

- under selected good practices and other business projects (environment area)

- #ZaczynamOdSiebie (#Startfrommyself) social action, Clean Poland Program Association
- Campaign of the Clean Poland Program Association promoting positive pro-environmental attitudes in TV Polsat
